

KOMPAKTE INFORMATIONEN AUS DER HIGH END BRANCHE. DIREKT VON DER HIGH END SOCIETY SERVICE GMBH

## HIGH END® 2016 - ON THE PULSE OF TIME

As by end of January 2016, we have confirmed nearly 500 exhibitors to attend at the forthcoming HIGH END show, which will be held from 5<sup>th</sup> to 8<sup>th</sup> of May 2016 at the MOC in Munich Germany. The largest European audio show will be once again the meeting place for all those interested in the latest consumer electronics. Under the motto "look, touch, listen", the HIGH END show presents all the industry has to offer in 2016 and far beyond.

The first day of the exhibition (the public holiday of Ascension Day) is exclusively reserved for trade visitors and media people from all over the world, who have been accredited as a trade visitor. To save 50% of the entry fee, trade visitors should do their online pre-registration right now on our web site [> here:](#)

There is no other place in Europe where the entire range of audio products is presented as impressively and emotionally with their fascinating brand worlds and no other exhibition offers such a comparable presence for major suppliers. The diversity of services in the industry reflects both, the big players as well as the many smaller, more specialized and niche providers. Here the visitor is immersed in analogue high-precision art as well as in the latest audio and visual soundscapes. Exquisite analogue equipment blends in harmoniously with the latest multimedia equipment. Perfectly processed loudspeakers, traditional tube amplifiers and cult turntables stand side by side with networked audio systems, audio streaming solutions, digital wireless systems and multimedia stations. Visitors can find everything their music-loving heart's desire, regardless of age and user behavior.

All details can be found on our website [>> here](#). Please notice also our latest travel information, including the listing with partner hotels, spouse outing program and all information for using our free of charge bus shuttle service [>> here](#).

## HIGH END® ON TOUR - ROADSHOW

From 5th to 6th March 2016 - the first roadshow this year will be held in Stuttgart at the South of Germany. The HIGH END ON TOUR (HoT) is the ideal way to get in contact with local dealer and the public around Germany since we all know, that even if the Munich HIGH END is always the main event, not everyone knows about it. Please see the dates and locations for the next shows [>> here](#) Please see on our web site also the involved exhibitors and their brands in Stuttgart. The HoT in Stuttgart will be much more than just a local road show as we will have more than 150 brands involved at the show [>> here](#).

## SHOWS AROUND THE WORLD

See following all events we're aware of, as far they have an national or international significance. Local (dealer) shows will not be mentioned. The exception is our own local HIGH END ON TOUR event.

If there is an important show you feel it should be listed, please let us know by contacting us at: [info@HighEndSociety.de](mailto:info@HighEndSociety.de) and please refer to "internet-diary" [>> here](#).
